## Special Medical Clinic, PMH

### About us

Princess Margaret Hospital (PMH) is an acute general hospital founded in 1975. In 2000, a comprehensive HIV service was initiated by the Infectious Disease Unit under the Department of Medicine and Geriatrics in view of the upsurge of HIV cases in Hong Kong. We also work closely with the Kowloon Bay Integrated Treatment Centre to provide inpatient care for their clients. In 2009, the Special Medical Clinic has been formerly established to cater for the need of our growing out-patient load. We accept referrals from private doctors, hospitals and non-government organizations.

### Our commitment

1. To provide comprehensive seamless care for out-patient and in-patient services, specialist care, psychosocial counseling and emotional support, disease preventions to clients and their relatives.
2. To enhance medical treatment, clinical training, quality of service, and strives for improvement.
3. Ongoing clinical research, and seeks the best and appropriate treatment.
4. To participate in community activities and sharing, partnerships with non-government organizations, and to enhance public awareness, understanding and prevention of the disease, to promote equality and harmonious community environment.

### HIV Specialist
